Hello and Happy Spring!

Tuba City Unified School District is happy to inform you that we are going to be implementing Positive Behavior Interventions and Supports. This a system that we are teaching our staff, faculty and community on how we support behaviors that our children demonstrate.

What is Positive Behavior Interventions and Supports?

- A decision making framework that guides faculty in the selection and integration of behavioral practices that increase positive behavior.
- Integrates data for decision making.
- Measurable outcomes supported and evaluated by data
- Systems that efficiently and effectively support teachers implementing positive behavioral supports.

Positive Behavior Interventions and Supports is a framework for providing preventative supports to schools. Tuba City Unified School District will choose the expectations of student behavior that will be posted throughout the school. Faculty and staff will teach these expectations to all of our students. Below please find our list of expectations that our leadership teams develop. Which bundle of expectations do you like best?
