ADDENDUM #1 TO REQUEST FOR PROPOSAL

PROPOSAL #: RFP 2026-002 – Internet Access

DATE: November 24, 2025

DUE DATE: **January 5, 2026**

This Addendum No. 1 is hereby made a part of the contract documents and shall be included with all proposals. Offeror shall acknowledge receipt of this Addendum No. 1 by including this page with all proposals

Proposals must be received by the District Purchasing Office at the specified location by the time and date cited. Proposals received by the correct time and date will be opened and the name of each offeror will be publicly read.

The following are answers to questions that were submitted via email.

Q1: How many IP addresses do you require?

A1: The district only requires one /29 static IP block, unless there is a cost difference between a /29 and a /30. If pricing differs, please share both options. The district does not host any public-facing servers and inbound traffic is disabled; this block will be used only for firewall and future flexibility.

Q2: Where is the HUB Location?

A2: What is being referred to as the “HUB” is our District MDF / Main Data Center, which is located at: Tuba City Junior High School – Cafeteria (District Datacenter). Latitude/Longitude is 36.13882, -111.23604

Q3: Where exactly do you want the Internet circuit placed?

A3: The existing internet circuit currently located at Tuba City High School. That circuit will remain in place. For this RFP, the District’s intent is to add a second Internet circuit at the District MDF located in the TCJHS Cafeteria.

Summary for clarity:

Site 1: Tuba City High School – existing circuit stays in place.

Site 2: Tuba City Junior High (District Data Center/MDF) – add a second circuit here.

The due date for proposals has been extended to JANUARY 5, 2026.

ALL OTHER REQUIREMENTS REMAIN UNCHANGED

Instructions for preparing the proposal are provided within the Terms and Conditions of the posted Request for Proposal and any Addendums. Proposals that do not conform to these instructions, or any proposal that is generic in nature or otherwise does not meet the requirements contained in this Form 470 and associated specifications, may be considered non-responsive and may be disqualified. The submission of a proposal will indicate that the offeror understands the requirements and specifications and that he can supply the materials, services or construction and meet the required delivery time line as specified. OFFERORS ARE STRONGLY ENCOURAGED TO CAREFULLY READ THE ENTIRE REQUEST FOR PROPOSAL.
